

TECHNICAL DATA SHEET

Healix® XPP-BB

Circular PP from Industrial Big Bags

Healix helps breaking the plastic wave by closing the loop on plastic fiber waste.

Used nets, ropes and other synthetic fiber-based plastics are collected and recycled into pristine circular polymers for the global manufacturing supply chain.

Product Characteristics

Healix® XPP-BB is a circular polypropylene (PP) grade supplied in pellet form. This 100% Post-Consumer Waste based grade, originating from industrial big bags, is characterized by high stretchability, medium impact and low residual odor. The material can vary in different colors, but not (carbon) black.

Recommended Applications

Healix® XPP-BB is a general-purpose grade that can be used in a wide variety of extrusion and injection molding applications.

This product is not tested and therefore not validated for use in food, pharmaceutical, medical, or potable water applications.
